

Spectra SHIELD

COLLAR ATTACHED MEDALLION

Available in
3 sizes for dogs weighing:

Spectra SHIELD

Offers long-term **4 month protection**.
Full coverage typically begins within 48 hours.

Knock down existing flea & tick infestations fast with Spectra Sure® Spray or Spectra Sure® Plus spot-on.

Spectra Sure SPRAY

FOR DOGS & CATS

Spectra Sure® Spray allows you to quickly fight pests on your dog's entire body. Sprays upside down to easily attack fleas where they can hide on your dog's belly. And it dries fast!

Spectra Sure PLUS FOR DOGS

Spectra Sure® Plus spot-on starts killing fleas & ticks in as little as 5 minutes killing newly emerged fleas before they can lay eggs.

14 TO 29 LBS

30 TO 55 LBS

OVER 56 LBS

It's easy! No mess, no stress. Just clip 'n go.

HOW THE SHIELD WORKS

- **EPA approved.**
- Unique, **sustained release** system for ongoing, long-term protection.
- **Release is slow and consistent** and avoids heavy concentrations of active ingredient on your dog.
- **Works like a spot-on** but without the oily mess and hassle of monthly applications
- **Clean, no oily residue or odor.**
Great for indoor and outdoor dogs.

IT'S SAFE AND EFFECTIVE

- **Spectra SHIELD® is waterproof.**
Dogs may swim and play in bodies of water without harming fish or aquatic life.
- **Safe to use with oral flea products.**
Many of the oral flea products on the market today have no efficacy against ticks.
- **Spectra SHIELD® will provide the needed tick control** as well as an extra shield of protection against fleas.
- **Read & follow label directions.**

Flea Control

WHAT YOU NEED TO KNOW

To keep harmful pests off of your pets and out of your home it's very important to follow this proven 3-step program.

- 1 **TREAT YOUR PET**
- 2 **TREAT YOUR HOME**
- 3 **TREAT YOUR YARD**

Fleas & ticks can transmit dangerous diseases not to mention the pain and irritation they can cause. If you are only treating your pet and not your home and yard you may be leaving your pet exposed to harmful pests.

Avoid detergent based shampoos as the necessary skin and hair oils will be stripped away. These oils are the mechanism for the migration of the insecticide over the dog. Durvet Naturals shampoos are detergent free and compatible with all topical flea & tick products.
